

Let's Take A Walk

an October creative experiment with artist Genevieve Rudd

Friday 30th October

In this time of social distance and "bubbles" we're inviting you to take part in a little artistic exercise that connects you to others without all the hassle! If you enjoy using your phone this is for you.

Using WhatsApp on your smartphone you'll be able to go for a walk safely in a place of your choice but be in connection with others as Genevieve sends you some creative messages to help you explore and share the environment around you.

This is a creative walk using your phone to take pictures, record sounds plus an opportunity to put you in the artist's shoes.

Here's what you need to do:

Choose a location in your local area

Work out a route that is manageable in 2 hours

Prepare a concertina zig-zag book and some drawing tools of choice - pencils, charcoal, felt tips etc. (MarketPlace will send some)

Check that:

The route has phone signal

You have the WhatsApp on your phone

You know how to use your camera - stills and video

You can record sound (usually "Voice Recorder" installed as standard)

At the end of our WhatsApp Walk, we'll meet together on ZOOM where we can all share the sounds and pictures that we and Genevieve have collected.

And of course you'll meet the other people you've been WhatsApp Walking with! They may be in Norfolk, West Suffolk or Fenland.
